

New Local Rule as from 5th August 2008

The bunker on the 4th fairway adjacent to the practice putting green.

This bunker is now considered Ground Under Repair at all times, regardless of whether it is full of water or playable.

The club raised the issue of the bunker filling with water with the Council at the latest green's committee meeting. We were told there was little that could be done to solve the problem in the short term but it was agreed that it should be filled in by the greenkeeper. Until then, the handicap committee have declared the bunker permanently Ground Under Repair and relief should be taken accordingly.
